

## **Residents of Woodbury Heights,**

Our recycling disposal location is no longer accepting plastic bags. This includes all plastic bags such as ones used at most local stores (Walmart, Shoprite, Target, etc.), and plastic trash bags. It is damaging their equipment and they are no longer tolerating it. Beginning **September 1<sup>st</sup>, 2019**, we will be receiving fines for truck loads contaminated with plastic bagging.

Please begin to refrain from putting these out for your weekly recycling pickup. All bags can be put out for trash, or taken to a local supermarket or big box stores that accept the plastic bags for recycling.

**On the week of August 26, 2019**, we will begin to start tagging and rejecting recycling cans/pickup that have plastic bags in them. Please pass along this information throughout the community to raise awareness of this matter.

We greatly appreciate your efforts in this matter and any further questions please contact us at Borough Hall.
